

1. Use the information that

$$3.9 \times 46 = 179.4$$

to find the value of

(a)  $3.9 \times 4.6$

(b)  $3900 \times 0.46$

2. Use the information that

$$23 \times 56 = 1288$$

to find the value of

(a)  $2.3 \times 56$

(b)  $0.23 \times 56000$

---
