1. Here are the distances, in kilometres, walked by 15 ramblers on one day.

$$
\begin{array}{lllllllllllllll}
3 & 4 & 5 & 6 & 7 & 8 & 11 & 12 & 13 & 14 & 15 & 16 & 18 & 22 & 27
\end{array}
$$

(a) Complete this table.

|  | Distance (in km) |
| :--- | :--- |
| Shortest distance |  |
| Lower quartile |  |
| Median |  |
| Upper quartile |  |
| Longest distance |  |

(b) Work out the range.
(c) Work out the interquartile range.
2. Here are the distances, in miles, travelled by 11 vintage car drivers to reach a rally.

$$
\begin{array}{lllllllllll}
7 & 15 & 21 & 29 & 33 & 47 & 61 & 75 & 84 & 97 & 105
\end{array}
$$

(a) Complete this table.

|  | Distance (in miles) |
| :--- | :--- |
| Shortest distance |  |
| Lower quartile |  |
| Median |  |
| Upper quartile |  |
| Longest distance |  |

(b) Work out the range.
(c) Work out the interquartile range.

MMMRQ \{mean, median, mode, range and quartiles\}: separate (11) answers

| $1 a)$ | Distance (in km) |
| :--- | :---: |
| Shortest distance | 3 |
| Lower quartile | 6 |
| Median | 12 |
| Upper quartile | 16 |
| Longest distance | 27 |

1b) 24 km
1c) 10 km
2b) 98 miles
2c) 63 miles
3. Here are the distances, in kilometres, walked by 15 cyclists on one day.

$$
\begin{array}{lllllllllllllll}
9 & 11 & 13 & 14 & 15 & 19 & 21 & 23 & 25 & 28 & 36 & 39 & 41 & 43 & 51
\end{array}
$$

(a) Complete this table.

|  | Distance (in km) |
| :--- | :--- |
| Shortest distance |  |
| Lower quartile |  |
| Median |  |
| Upper quartile |  |
| Longest distance |  |

(b) Work out the range.
(c) Work out the interquartile range.
4. Here are the times spent, in minutes, by 19 students on their journey to school one day.
$\begin{array}{llll}5 & 7 & 7 & 8\end{array}$
$9 \quad 10$
12
$15 \quad 16 \quad 18$
19
20
22
23
$24 \quad 25$
28
33
(a) Complete this table.

|  | Time(minutes) |
| :--- | :--- |
| Shortest time |  |
| Lower quartile |  |
| Median |  |
| Upper quartile |  |
| Longest time |  |

(b) Work out the range.
(c) Work out the interquartile range.

MMMRQ \{mean, median, mode, range and quartiles\}: separate (11) answers

| $3 a)$ | Distance (in km) |
| :--- | :---: |
| Shortest distance | 9 |
| Lower quartile | 14 |
| Median | 23 |
| Upper quartile | 39 |
| Longest distance | 51 |

3b) 42 km
3c) 25 km
4b) 37
4c) 15

| $4 a)$ | Time(minutes) |
| :--- | :---: |
| Shortest time | 5 |
| Lower quartile | 9 |
| Median | 18 |
| Upper quartile | 24 |
| Longest time | 42 |
