1. Here are some shapes cut out from centimetre squared paper.

## Complete:

example

|  | 1 | 2 |  |
| :---: | :---: | :---: | :---: |
| 3 | 4 | 5 | 6 |
| 7 | 8 | 9 | 10 |
|  | 11 | 12 |  |

$$
\text { area }=12 \mathrm{~cm}^{2}
$$

## (i)

(i) area $=$ $\qquad$ $\mathrm{cm}^{2}$
(ii)

(ii) area $=\ldots \mathrm{cm}^{2}$
2. Here are some shapes cut out from centimetre squared paper.

Complete:

(i) area $=\ldots . \mathrm{cm}^{2}$
(ii)

(ii) area $=\ldots . \mathrm{cm}^{2}$
(iii) area $=\ldots . \mathrm{cm}^{2}$
3. Here are some shapes cut out from centimetre squared paper.

Complete:

## example

| 1 | 2 | 3 | 4 | 5 |
| :--- | :--- | :--- | :--- | :--- |
| 6 |  | 7 |  | 8 |

area $=\ldots \mathrm{cm}^{2}$
(i)

(i) area $=\ldots . \mathrm{cm}^{2}$
(ii)

(ii) area $=\ldots \mathrm{cm}^{2}$
4. Here are some shapes cut out from centimetre squared paper.

Which shape has the largest area?
(a)

(c)

4. ...............
