1. Here is a square with area $100 \mathrm{~mm}^{2}$

Diagram NOT
accurately drawn

Work out the side length of the square.
mm
2. The area of $\mathrm{PQRS}=3.24 \mathrm{~m}^{2}$

Diagram NOT accurately drawn

Work out the length of QR
shapeSkillsYC (10) Answer 1) 10
2) 1.8
3) 10
4) 30

1. Here is a square with area $100 \mathrm{~mm}^{2}$

Diagram NOT
accurately drawn

Work out the side length of the square.
mm
2. The area of $\mathrm{PQRS}=3.24 \mathrm{~m}^{2}$

Diagram NOT accurately drawn

Work out the length of QR
3. The area of a square is $100 \mathrm{~cm}^{2}$

Find the length, in centimeters, of one side of the square.
4. Here is a square with an area of $900 \mathrm{~km}^{2}$

Work out the length of one side of the square.
3. The area of a square is $100 \mathrm{~cm}^{2}$

Find the length, in centimeters, of one side of the square.
cm
4. Here is a square with an area of $900 \mathrm{~km}^{2}$

Work out the length of one side of the square.
km
