

1. Use the block diagram to complete

these 3 solve equations:

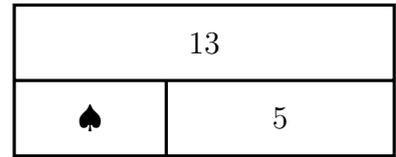

$$\begin{aligned} \dots - \blacksquare &= \dots \\ \blacksquare + \dots &= \dots \\ \dots + \blacksquare &= \dots \end{aligned}$$

2. Use the block diagram to complete

these 3 solve equations:

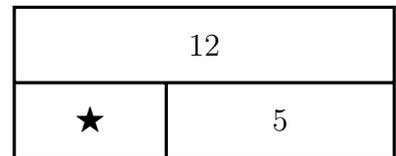

$$\begin{aligned} \dots - \spadesuit &= \dots \\ \spadesuit + \dots &= \dots \\ \dots + \spadesuit &= \dots \end{aligned}$$

3. Use the block diagram to complete

these 3 solve equations:

$$\begin{aligned} \dots - \star &= \dots \\ \star + \dots &= \dots \\ \dots + \star &= \dots \end{aligned}$$

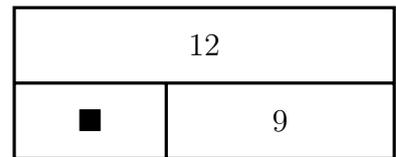

solving	1	2	3	4	5	6
ready	$12 - \blacksquare = 9$	$13 - \spadesuit = 5$	$12 - \star = 5$	$16 - \triangle = 8$	$15 - \heartsuit = 7$	$12 - \clubsuit = 3$
(1)	$\blacksquare + 9 = 12$	$\spadesuit + 5 = 13$	$\star + 5 = 12$	$8 + \triangle = 16$	$\heartsuit + 7 = 15$	$3 + \clubsuit = 12$
answers	$9 + \blacksquare = 12$	$5 + \spadesuit = 13$	$5 + \star = 12$	$\triangle + 8 = 16$	$7 + \heartsuit = 15$	$\clubsuit + 3 = 12$

1. Use the block diagram to complete

these 3 solve equations:

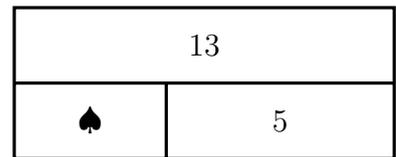

$$\begin{aligned} \dots - \blacksquare &= \dots \\ \blacksquare + \dots &= \dots \\ \dots + \blacksquare &= \dots \end{aligned}$$

2. Use the block diagram to complete

these 3 solve equations:

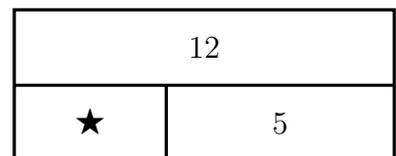

$$\begin{aligned} \dots - \spadesuit &= \dots \\ \spadesuit + \dots &= \dots \\ \dots + \spadesuit &= \dots \end{aligned}$$

3. Use the block diagram to complete

these 3 solve equations:

$$\begin{aligned} \dots - \star &= \dots \\ \star + \dots &= \dots \\ \dots + \star &= \dots \end{aligned}$$

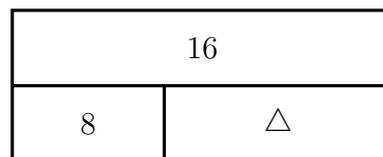

4. Use the block diagram to complete

these 3 solve equations: $\dots - \triangle = \dots$

$$\dots + \triangle = \dots$$

$$\triangle + \dots = \dots$$

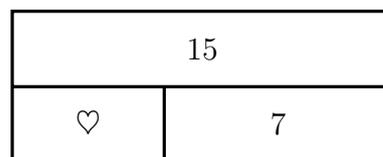

5. Use the block diagram to complete

these 3 solve equations: $\dots - \heartsuit = \dots$

$$\heartsuit + \dots = \dots$$

$$\dots + \heartsuit = \dots$$

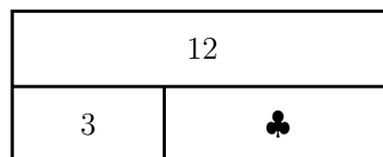

6. Use the block diagram to complete

these 3 solve equations: $\dots - \clubsuit = \dots$

$$\dots + \clubsuit = \dots$$

$$\clubsuit + \dots = \dots$$

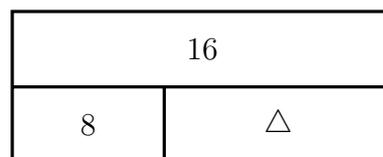

4. Use the block diagram to complete

these 3 solve equations: $\dots - \triangle = \dots$

$$\dots + \triangle = \dots$$

$$\triangle + \dots = \dots$$

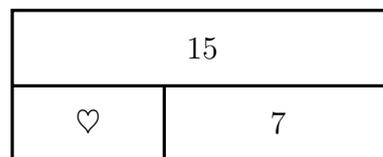

5. Use the block diagram to complete

these 3 solve equations: $\dots - \heartsuit = \dots$

$$\heartsuit + \dots = \dots$$

$$\dots + \heartsuit = \dots$$

6. Use the block diagram to complete

these 3 solve equations: $\dots - \clubsuit = \dots$

$$\dots + \clubsuit = \dots$$

$$\clubsuit + \dots = \dots$$
