

1. Use the block diagram to complete

these 3 solve equations:

$$\dots - \clubsuit = \dots$$

$$\dots + \clubsuit = \dots$$

$$\clubsuit + \dots = \dots$$

2. Use the block diagram to complete

these 3 solve equations:

$$\dots - \blacklozenge = \dots$$

$$\blacklozenge + \dots = \dots$$

$$\dots + \blacklozenge = \dots$$

3. Use the block diagram to complete

these 3 solve equations:

$$\dots - \nabla = \dots$$

$$\nabla + \dots = \dots$$

$$\dots + \nabla = \dots$$

16	
$\nabla$	7

4. Use the block diagram to complete

these 3 solve equations:

$$\dots - \textcircled{*} = \dots$$

$$\textcircled{*} + \dots = \dots$$

$$\dots + \textcircled{*} = \dots$$

## Answers

1.  $11 - \clubsuit = 8$

$8 + \clubsuit = 11$

$\clubsuit + 8 = 11$

2.  $14 - \diamondsuit = 9$

$\diamondsuit + 9 = 14$

$9 + \diamondsuit = 14$

3.  $16 - \nabla = 7$

$\nabla + 7 = 16$

$7 + \nabla = 16$

4.  $16 - \circledast = 9$

$\circledast + 9 = 16$

$9 + \circledast = 16$
