

1. Here is a number machine

$$\text{input} \longrightarrow \boxed{\times 9} \longrightarrow \text{output}$$

Complete this table for the number machine

input	output
7	63
3	

2. Here is a number machine

$$\text{input} \longrightarrow \boxed{+ 7} \longrightarrow \text{output}$$

Work out the **output** when the input is 5

2.

3. Here is a number machine

$$\text{input} \longrightarrow \boxed{\div 2} \longrightarrow \text{output}$$

Work out the **output** when the input is 14

3.
