

1.

1.

Caitlin is doing work experience in a “Healthy mother and baby breast feeding” support unit. The scatter graph shows the weights of some baby girls who attend the unit one day.

2. The table shows information about two more baby girls.

Age in weeks	11	8
Weight in kg	5.1	4.3

(a) Complete the scatter graph to show the information of these two babies.

(b) What kind of correlation does the scatter graph show?

3. Dahlia and Elina visit the “Healthy mother and baby breast feeding” support unit.

Elina is 7 weeks old.

Estimate Elina’s weight in kilograms.
