

1. Work out $182 \div 7$

You **must** show your **workings out**.

You may use this incomplete 7's row of the times table grid.

×	2	3	4	5	6	7	8	9	10
7	14		28	35			56		70

1.

2. Work out $294 \div 6$

You **must** show your **workings out**.

You may use this incomplete 6's row of the times table grid.

×	2	3	4	5	6	7	8	9	10
6	12		24	30			48		60

2.

3. Work out $141 \div 3$

You **must** show your **workings out**.

You may use this incomplete 3's row of the times table grid.

×	2	3	4	5	6	7	8	9	10
3	6		12	15			24		30

3.

4. Work out $581 \div 7$

You **must** show your **workings out**.

You may use this incomplete 7's row of the times table grid.

×	2	3	4	5	6	7	8	9	10
7	14		28	35			56		70

4.

Answers

1. 26

minimal workings out: $7 \times 20 + 7 \times 6 = 140 + 42$
(or equivalent division method)

2. 49

minimal workings out: $6 \times 40 + 6 \times 9 = 240 + 54$
(or equivalent division method)

3. 47

minimal workings out: $3 \times 40 + 3 \times 7 = 120 + 21$
(or equivalent division method)

4. 83

minimal workings out: $7 \times 80 + 7 \times 3 = 560 + 21$
(or equivalent division method)
