

1. Match these

shape name number of sides

decagon 5

octagon 6

hexagon 8

pentagon 10

2. Write down the mathematical names of these polygons.

(i) (ii) (iii)

2D (10) answers Q1: decagon → 10 octagon → 8, hexagon → 6, pentagon → 5

Q2: i) octagon, ii) hexagon iii) pentagon

1. Match these

shape name number of sides

decagon 5

octagon 6

hexagon 8

pentagon 10

2. Write down the mathematical names of these polygons.

(i) (ii) (iii)

3. Write down the mathematical names of these polygons.

(a)

(a)

(b)

(b)

(c)

(c)

Q3: (a) hexagon, (b) decagon, (c) pentagon, Q4: 5 → pentagon, 6 → hexagon, 8 → octagon, 10 → decagon

4. Complete this table.

number of sides	polygon name
5	
6	
7	heptagon
8	
9	nonagon
10	

3. Write down the mathematical names of these polygons.

(a)

(a)

(b)

(b)

(c)

(c)

4. Complete this table.

number of sides	polygon name
5	
6	
7	heptagon
8	
9	nonagon
10
