

1. Complete the calculation $50 + 10 = \dots\dots$

You may either work out $5 + 1 = \dots$

or count on 10

\dots and then adjust $50 + 10 = \dots\dots$

2. Complete the calculation $70 + 20 = \dots\dots\dots$

You may either work out $7 + 2 = \dots$

or count on in 10's

\dots and then adjust $70 + 20 = \dots\dots\dots$

3. Complete the calculation $50 + 30 = \dots\dots$

You may either work out $5 + 3 = \dots$

or count on in 10's

\dots and then adjust $50 + 30 = \dots\dots$

4. Complete the calculation $40 + 40 = \dots\dots\dots$

You may either work out $4 + 4 = \dots$

or count on in 10's

\dots and then adjust $40 + 40 = \dots\dots\dots$
