1. Complete these calculations

(i) $9-3=\ldots$
(ii) $6-5=\ldots$
2. Complete these calculations
(i) $7-5=\ldots$

(ii) $8-2=\ldots$

3. Complete this calculation.

You may use either diagram to help you.
(i) $7-4=\ldots$

4. Complete this calculation $6-4=\ldots$
5. Complete the calculation $70-30=$ $\qquad$
You must show your workings out.

| 70 |  |
| :---: | :---: |
| 30 |  |
|  |  |
| 30 | 70 |

| 70 |  |
| :---: | :---: |
| 30 |  |

6. Complete the calculation $90-50=$ $\qquad$
7. Complete the calculation 63-40= $\qquad$
You must show your workings out.

8. Complete the calculation $58-30=\ldots \ldots$
9. Complete the calculation $59-27=$ $\qquad$
You must show your workings out.

10. Complete the calculation $79-26=$ $\qquad$
11. Complete the calculation $73-28=$ $\qquad$
You must show your workings out.

| 73 |  |  |  |  | 70 |  |  | 3 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 28 |  |  |  |  |  |  | 10 | 3 |
|  | $\uparrow$ |  | - |  | 20 |  |  | 8 |
| 28 ... 3 73 |  |  |  |  |  |  |  |  |

12. Complete the calculation $92-58=$ $\qquad$
